Education

Edge Tech Academy, Arlington, TX

October 2019

Software Development

- Accredited full stack software development program (Java, C#, JavaScript, HTML, CSS, Node.js, Web App Development).
- 4.0 GPA
- Studied and practiced fundamentals of programming languages using real world applications and hands-on development.
- Collaborated with and assisted peers in developing full stack applications using object-oriented programming principles such as inheritance and polymorphism.
- Studied cryptography and developed an encryption program in Java using AES for maximized security.
- Participated in daily stand up meetings to discuss where we stood on our projects, following AGILE principles.
- Tested and debugged code to ensure proper functionality of software. Utilized debugger in multiple IDEs to pinpoint and correct errors where they arose.
- Capstone projects: Personal Resume Website, Encryption Program using AES, Full Stack MVC Web Application complete with SQL database.

Tarrant County College, Fort Worth, TX

May 2017

Liberal Arts

- Received Associate's Degree in Liberal Arts
- 3.5 GPA

Experience

Pier 1 Imports, Fort Worth, TX

November 2014 - February 2020

Senior Customer Relations Trainer

- Trained and mentored new and tenured associates. Helped train over 100 new associates and convert workforce from in-office to at-home.
- 6-time recipient of Associate of the Month and Associate of the Quarter.
- Assigned as lead system tester after volunteering to test a new program and showing expertise.
- Took initiative of overhauling and developing a new equipment management process, which saved the department from overspending.
- Reduced number of PC related work stoppages by implementing and maintaining a process for testing and troubleshooting machines.
- Served as Interim Supervisor during the spring and early summer of 2018.
- Acted as liaison to system development and end user computing teams to ensure needs of department were being met.
